

## EDITOR-IN-CHIEF

**Assoc. Prof. PhD. Pham Van Dong**

## EDITOR BOARD

### CHAIRMAN

**Assoc. Prof. PhD. Tran Duc Quy**  
Hanoi University of Industry

Prof. PhD. Dang Quang A  
Vietnam Academy of Science and Technology

Assoc. Prof. PhD. Pham Van Bong  
Hanoi University of Industry

Assoc. Prof. PhD. Vu Manh Chien  
University of Québec, Canada

Assoc. Prof. PhD. Trinh Trong Chuong  
Hanoi University of Industry

Prof. PhD. Tran Tho Dat  
National Economics University, Vietnam

Prof. PhD. Chu Van Dat  
Military Technical Academy

Prof. PhD. Tran Van Dich  
Hanoi University of Science and Technology

Prof. Dr. Sc. Banh Tien Long  
Hanoi University of Science and Technology

Acad. Prof. Dr. Sc. Tran Dinh Long  
Vietnam Electrical Engineering Association

Prof. PhD. Dang Thi Loan  
National Economics University, Vietnam

Prof. Dr. Sc. Ho Dac Loc  
Ho Chi Minh City University of Technology

Assoc. Prof. PhD. Nguyen Thi Hong Nga  
Hanoi University of Industry

Assoc. Prof. PhD. Le Hong Quan  
Hanoi University of Industry

Prof. Dr. Sc. Nguyen Xuan Quynh  
Vietnam Research Institute of Electronics,  
Informatics and Automation

Assoc. Prof. PhD. Vu Minh Tan  
Hanoi University of Industry

Prof. PhD. Vu Duc Thi  
The Information Technology Institute - VNU

Prof. PhD. Nguyen Thanh Thuy  
University of Engineering and Technology - VNU

Prof. PhD. Tran Van Sung  
Vietnam Academy of Science and Technology

Prof. Dr. Sc. Dang Ung Van  
Peace University, Vietnam

Assoc. Prof. PhD. Ho Anh Van  
Japan Advanced Institute of Science and Technology

## EDITORS

Pham Van Dong - Head  
Dang Van Binh  
Du Dinh Vien  
Do Huyen Cu

- Warm extrusion of AA7075 aluminum alloy **3** Manh Tien Nguyen, Trong Tan Le
- Application of Tecnomatix in simulation and optimization of manufacturing processes in the factory **8** Hoang Lam, Nguyen Huu Loc, Nguyen Xuan Tung Lam, Pham Le Bac, Pham Van Sang
- Study on the influence of the nozzle profile on the recoilless condition of the recoilless gun **15** Nguyen Minh Phu, Vo Van Bien, Mai Anh Quang, Nguyen Van Tuyen
- Improving material warehouse premises at Thang Long Metal Company by Ranked Position Weighted method (RPW) **20** Pham My Huyen, Pham Thi Minh Hue, Nguyen Van Thinh
- Forecasting the demand for production of vehicles using ARIMA model at Factory No. 3, Thang Long Metal Company **25** Nguyen Thi Thanh Binh, Pham Thi Minh Hue
- Determination of gas flow parameters in the nozzle of a solid fuel rocket engine by analytical method **30** Vo Van Bien, Nguyen Minh Phu
- Study on formability simulation of aluminum sheet 1.5mm thickness **35** Ma Van Viet
- The influence of technical factors and fuel sources on small-scale biomass power plant investment and solutions **38** Nguyen Duc Quyen, Nguyen Duc Minh, Nguyen Van Lanh, Nguyen Thanh Nghi, Le Thi Kim Phung, Pham Quoc Khanh, Le Van Hieu
- Design of power system stabilizers based on the model of single machine infinite bus power system **44** Hong Quang Nguyen, Dac Nam Nguyen, Le Quang Vinh
- Developing a multibody model of an articulated vehicle with a flexible semi-trailer **50** Truong Dang Viet Thang, Trinh Minh Hoang, Nguyen Trong Hoan, Nguyen Minh Toan
- Studying the influence of the nozzle profile on the working performance of a solid-fuel rocket engine **54** Vo Van Bien, Nguyen Minh Phu, Nguyen Duy Phon
- Assessments of energy efficiency of the green MQL-assisted multi-roller burnishing process **59** Trung-Thanh Nguyen, Thai-Le Minh, Thai-Nguyen Chung, Truong-An Nguyen, Quan-Nguyen Van, Huu-Toan Bui, Hung-Le Xuan, Tuan-Ngo Van, Luan-Van Le
- Application of Blockchain technology for mango traceability model in Vietnam **64** Trinh Phuong Tam, Nguyen Minh Trieu, Nguyen Truong Thinh
- Artificial Neural network-based specific cutting energy model for the rotary turning mold steel **72** Trung-Thanh Nguyen, Thai-Le Minh, Thai-Nguyen Chung, Truong-An Nguyen, Quan-Nguyen Van, Huu-Toan Bui, Hung-Le Xuan, Tuan-Ngo Van, Luan-Le Van
- Design of automatic mango classification system based on external features and weight **77** Trinh Phuong Tam, Nguyen Minh Trieu, Nguyen Truong Thinh
- Investigate the effect of the throttling ring wear on the movement of the artillery on the tank when firing **82** Tran Van Tan, Nguyen Minh Phu, Vo Van Bien
- Investigation of back-propagation network structures in predicting wear value of CBN-coated tools during high-speed dry turning of SKD11 steel **87** Hoang Thi Dieu, Tang Quoc Nam, Phung Van Binh, Dao Van Duong, Nguyen Van Trung
- Motorbike parking systems revolution through electronic payment and automatic card issuance **92** Dang Tri Dzung, Nguyen Truong Thinh
- Study on the influence of cutting parameters on consumption energy and surface roughness in high-speed face milling of SKD11 steel after heat treatment using artificial eco-system algorithm **97** Dao Van Duong, Nguyen Van Trung, Le Van Tan, Duong Xuan Bien, Dang Van Hai
- Low-temperature magnetoresistance effect and thermoelectric properties of polycrystalline FeAs<sub>2</sub> thin film on LaAlO<sub>3</sub> (100) substrate **104** Duong Van Thiet, Nguyen Xuan Chung, Nguyen Tien Tung, Nguyen Quoc Tuan, Nguyen Minh Quang, Sunglae Cho
- Modeling and optimizing surface roughness in turning 40X steel based on genetic programming and grey wolf optimization algorithms **108** Duong Xuan Bien, Do Manh Tung, Nguyen Van Nam, Le Van Tan, Do Tien Lap, Ta Huu Vinh, Le Thanh Binh
- Mechanical design of dual-arms for social service robot based on nonverbal interaction **114** Nguyen Duc Tai, Nguyen Truong Thinh
- The influence of some parameters in atmospheric plasma spray of powder 85Ni15Al on the particle velocity **118** Vu Duong, Le Hong Ky

- Fabrication of TiZr-based bulk metallic glass foam using hot-pressing at different temperatures and holding times **124** Nguyen Van Tai, Nguyen Hoai Tan, Huynh Thanh Thuong, Pham Quoc Liet, Hoang Minh Thuan, Nguyen Van Cuong
- Research on computation, design, experimentation of the thin part manufacturing process integrating 3D printing and rolling technology **129** Ngo Quang Tu, Nguyen Duc Diep, Nguyen Tien Dinh, Le Minh Tuan An
- Effect of technological winding parameters on yarn package density **135** Tran Duc Trung, Dao Anh Tuan, Chu Dieu Huong
- Study on structural simulation of pick-to-place robot on Toshiba DC650B horizontal pressure casting machine **143** Nguyen Tien Sy, Nguyen Xuan Chung, Trinh Van Long
- Effect of processing parameters on warpage of injection molded parts using Taguchi method **149** Van-Long Trinh, Xuan-Chung Nguyen, Tien-Sy Nguyen, Huu-Hung Nguyen
- Calculation and layout design of assembly system and detection of product errors in electronic circuit board manufacturing **153** Nguyen Quoc Tuan, Dinh Thi Thanh Tam
- Study the influence of technological parameters on the adhesion of the CrN hard coating to the SKD11 steel substrate was made by DC pulse magnetron sputtering method **159** Tran Van Dua, Pham Duc Cuong
- Wire and arc additive manufacturing of inconel alloys: A review on microstructures, mechanical properties, and common defects **164** Duc Manh Dinh, Van Thao Le, Quoc Hoang Pham
- Screening main factors affecting the stability of 7.62mm PKMS guns using plackett-burman design **169** Duong Van Thach, Nguyen Thai Dzung, Nguyen Van Hung, Ta Duc Tam
- Electrochemical machining of oil grooved bushings **178** Nguyen Minh Dat, Ngo Van Tuan, Duong Quoc Dzung
- Experimental study on the influence of fluid flow pressure on the working efficiency of cooling tanks **183** Vu Thanh Truong, Dao Trong Thang, Nguyen Thi Hai Van
- Artificial neural network-based optimization of the cryogenic-internal diamond burnishing process in terms of surface quality **189** Nguyen Van Thai, Le Van An, Nguyen Trung Thanh
- Optimizing the technological parameters for shear spinning of a conical component on a CNC lathe **198** Tran Duc Hoan, Lai Dang Giang, To Thanh Loan, Tran Phuong Thanh
- Condensation heat transfer performance of refrigerants in multiport mini-channel tubes: An experimental investigation **203** Pham Quang Vu
- Effect of road surface on vibration of passenger in bus vehicle **209** Le Duy Long, Nguyen Thanh Quang, Le Hong Quan, Phi Hoang Trinh, Le Duc Hieu
- Analyzing resistance on pneumatic tires using energy model **213** Ngo Quang Tao, Nguyen Thanh Quang, Le Hong Quan
- Analysis of effect of rolling resistance coefficient on automobile fuel consumption **216** Ngo Quang Tao, Nguyen Thanh Quang, Le Van Anh, Pham Minh Hieu, Le Duc Hieu
- Analysis of vibration experienced by passengers and their seats in a bus vehicle **219** Le Duy Long, Nguyen Thanh Quang, Le Hong Quan, Pham Minh Hieu, Le Duc Hieu
- Research on regenerative brake design using magnetorheological fluid **222** Nguyen Anh Ngoc, Vu Hai Quan, Nguyen Minh Tien, Tran Phuc Hoa, Nguyen Tien Dat, Duong Dinh Nghia
- Free vibration analysis of the functionally graded stepped cylindrical shells using the continuous element method **226** Le Quang Vinh, Truong Thi Thu Huong, Nguyen Manh Cuong
- Improve path following efficiency for 4WD4WS robot by using exponential functions in virtual target guidance algorithm **231** Kien Nam Dang, Vu Nguyen, Huy Quoc Vu
- Virtual interactive teaching technology and training based on AI, VAR **236** Nguyen Thi Thanh, Le Huy Tung
- Study of design and manufacture of the controller of hybrid powertrain system **240** Pham Van Kien, Doan Thanh Son, Do Kim Hoang
- Analysis and simulation of the punching system at Factory No. 1, Thanglong Metal Company **245** Thi Minh Hue Pham, Thi Thanh Mai Nguyen, Viet Anh Nguyen, Thi Van Anh Vu, Van Thinh Nguyen
- Performance evaluation and DEAR based optimization on machining leather specimens to reduce carbonization **249** Hung Tran Quoc, Muthuramalingam T., Khaja Moiduddin, Son Nguyen Hoai
- A study on the design of a novel closed-chain robot using the theory of finite symmetry groups **253** Thanh-Lam Bui, Dinh-Phong Dang, Bui-Tan-Dung Nguyen, Ha-Linh Tran, The-Toan Hoang, Ngoc-Tien Tran
- Research on crane beam calculation methods to reduce simulation computation time **257** Nguyen Hong Tien, Vu Phu Quyen, Le Don Nguyen
