- Fabrication of silicon rubber - ferrofluid composite actuator **3** Thuy Nguyen Thi Bich, Thuy Tran Thi Thu, Tien Nguyen Hong, Duong Khuat Duc, Thinh Hoang Xuan, Huong Nguyen Thi Thu, Shridhar.S.Deshmukh, Shailesh Shirguppikar, Pankaj.B.Gavali, Vaibhav Ganachari, Praveen S. Atigre
- A case study of macropartical reducing while coating TiAlCN by arc cathode using permanent magnet **10** Nguyen Duc Luan, Pham Duc Cuong
- Application of pre-impulse in the design of automatic weapons based on the free breech principle **17** Dao Van Doan, Nguyen Dinh Hoang Anh, Kieu Duy Thanh
- Multi-material fabrication of stainless steel to nickel alloy parts using direct laser metal deposition: A review **22** Quan Nguyen Van, Hoang Nguyen Van, Tuoi Do Xuan, Khoa Doan Tat
- Research on the influence of structural parameters of fume extractor on its performance on the tank using Ansys fluent software **29** Lai Thanh Tuan, Dinh Hoang Quan
- Study on the determination of the optimal heat exchange tube type for hydraulic fluid coolers in hydraulic excavators **33** Giang Quoc Khanh, Nguyen Long Hai, Nguyen Danh Phuong, Vu Thi Duyen
- Numerical analysis of minor head losses in 3D flow geometries using finite element modeling **40** Nguyen Manh Hung, Vu Manh Hieu, Ha Truong Sang
- A review on wire arc additive manufacturing for industrial component repair and restoration **48** Van Thuc Dang, Van Thao Le, Trung Thanh Nguyen
- Application of WC-Ni plasma spray coating technology to restore and enhance wear resistance for lathe slideways **55** Dang Xuan Thao, Bui Son Hai, Vu Dinh Cuu, Nguyen Tien Can
- Navier-stokes prediction of aerodynamic characteristics of a 7.62mm spin-stabilized projectile at supersonic speeds **61** Bui Xuan Son, Do Van Minh, Bui Minh Tuan, Nguyen Hai Minh, Doan Van Dung, Nguyen Quang Tuan
- AI-based automotive engine diagnostics: Exploring the enginefaultdb dataset for fault detection **68** Van-Trung Nguyen, Tran-Phu Nguyen, Ly Vinh Dat
- Research on the motion stability of self-balancing two-wheelers **76** Nguyen Phi Truong, Vu Ngoc Quynh, Nguyen Manh Dzung
- An improved wild horse optimizer algorithm for electric vehicle charging stations combined distributed generation and battery storage system **82** Thien Vo Minh, Tien Doan Thi Kieu, Lan Anh Tran Thi, Thong Luong Van, Trien Huynh Phat, Dieu Vo Ngoc
- The influence of characteristic parameters on the performance of fatigue lane departure recognition model **89** Le Dinh Dat
- Simulation study of vibration of 5-seat sedan **94** Le Duy Long, Nguyen Thanh Quang, Le Hong Quan, Nguyen Xuan Khoa, Tran Huy Hoang, Le Dinh Dat, Tran Duc Binh
- Analysis and optimization of some oscillation parameters of the thermal exhaust valve system model in internal combustion engines **99** Cong Truong Chi, Tai Nguyen Van, Hue Pham Thi Minh
- Simulation study of ABS brake system using Carsim software **102** Nguyen Trung Kien, Nguyen The Luong, Pham Minh Hieu, Than Quoc Viet, Pham Hoa Binh, Do Van Tuan
- Simulation study to evaluate the charging efficiency when improving the charging intake manifold for a single cylinder diesel engine manufactured in Vietnam **109** Nguyen Tuan Nghia, Nguyen Phi Truong, Nguyen Xuan Khoa

- Experimental study and evaluation of vibration in a 5-seat sedan
- Optimizing brake disc structure through heat dissipation and mass reduction using optislang
- Comprehensive climate shape analysis and optimization for SUV body design to enhance fuel efficiency
- Analysis and selection of electric motors for electric vehicles in Vietnam
- Evaluating the characteristics of the actuator mechanism in the air suspension systems on automobiles
- Experimental study on determining the torsional stiffness of anti-roll bar in truck
- The effect of blade pitch angle on the airflow of axial fan at different operational conditions
- Effect of interlining fusing parameters on peel strength and shrinkage of fused fabric
- Design of furnace head temperature control system design for 3D printer using fuzzy logic controller
- Control rotary inverted pendulum model balancing using an improved fuzzy controller based on a quantum swarm optimization algorithm
- Adaptive sliding mode control for twin rotor MIMO system using radial basis function neural network
- Inverse kinematics and singularity analysis of a kinematically redundant parallel robot
- Tool wear segmentation using YOLOv11 for enhanced machining efficiency
- A battery harvesting Buck-Boost converter using dual path operation for inductor current reduction
- The design of trajectory tracking controller for mobile robots using feedforward-feedback methods
- 115** Le Duy Long, Nguyen Thanh Quang, Le Hong Quan, Nguyen Xuan Khoa, Nguyen Viet Hoa, Le Dinh Dat, Tran Duc Binh
- 119** Truong Dang Viet Thang, Nguyen Giang Nam, Doan Hoang Long, Tran Quang Han, Nguyen Thanh Tung, Pham Quang Tuan
- 125** Minh Hieu Pham, Dinh Van Tra, Nguyen The Anh, Truong Huy Phong, Chu Duc Hung, Nguyen Duc Trong, Do Thai Phuong
- 129** Le Hoang Long, Khong Vu Quang, Pham Huu Nam, Le Thi Hoang Linh
- 137** Do Trong Tu, Bui Trung Duc, Pham Hai Trinh, Vu Van Tan
- 142** Ngo Van Dung, Vu Van Tan, Truong Manh Hung
- 150** Nguyen Duc Trung, Nguyen Truong Giang, Phan Minh Thuy, Nguyen Thi Thu Hien, Trinh Huu Truong, Vu Dinh Hieu, Thach Ngoc Mai, Nguyen Duc Nam, Nguyen Van Khuyen, Nguyen Trong Linh, Le Minh Toi, Nguyen Trung Hieu
- 156** Nguyen Thi Le, Tran Thi Hoa
- 162** Thanh-Lam Bui, Van-Truong Nguyen, Dinh-Hieu Phan, Duc-Quang Nguyen, Hoang-Anh Do, Minh-Thuan Le, Van-Tu Phung
- 168** Thanh-Lam Bui, Van-Truong Nguyen, Ngoc-Tien Tran, Duc-Quang Nguyen, Tuan-Hung La, Minh-Quang Nguyen, Trung-Thanh Le
- 175** Dinh Hieu Phan, Van Truong Nguyen, Thanh Lam Bui, Dinh Truong Nguyen
- 180** Thanh-Trung Do, Van-Truong Nguyen
- 185** Cong-Duy Do, Tien-Dung Hoang, Quang-Truong Tran, Van-Truong Nguyen, Thanh-Binh Nguyen
- 189** Trung Kien Vu, Xuan Canh Pham, Xuan Thanh Pham
- 194** Anh-Tu Nguyen, Cong-Thanh Vu, Thai-Hoc Phan, Tien-Phuong Nguyen, Thanh-Tung Pham
